The evil Jabberwock

The deadly appearance

This vicious creature has a tail which can slice someone's head off because it is as strong as brick and his blazing,hot eyes that can cut shun the Bandersnatch.This beast has a wing that can fly for 600 miles per hour even higher than the Jubjub bird.The dangerous creature have teeth as sharp as a knife to suck the blood easier.Do not forget his claws that is as pointed as a sword.It can smash a metal in to pieces his neck is as long as pipe and as scaly as a snake.

The terrifying cave

If you think the appearance was creepy DON'T read on because this is way sinister.He lives in the Tugley wood in a damp cave .HIs nest is made of Jubjub deadly,crackled boes which he ate a long time ago. When you're entering the cave there will be dead bodys and blue blood from the bandersnatch.Everyone calls his cave”the cave of doom”.He has two homes one for eating and one for sleeping.Some brave humans went in the cave but never came back.Its located in the middle of the Tulgey wood . It smells like gas.

The delicious diet

This odious beast is an Omnivore.Its favorite food Jubjub birds eggs.He eats nearly everything, specially Bandersnatches tail.If there is no prey around it devous fruit and leaves.he is a cunning creature.he eats Borogoves head and yong childs heart and lungs.If he is a super hungry, he eats older humans . he knows if its over 30 or under 30 years old.This violet beast catches his food easily because his prey are sleeping.The Jubjub birds wing is so boney he hates it.
