The Bloody Jabberwock

Appearance

This deadly creature has claws that can demolish your flesh and drink your blood.They have eyes that can shoot extremely large lazars that can melt your whole body. Its teeth can bite the flesh out of your bones. It has a tail that can reach out and literally SMACK YOUR FACE. Till it bleeds. The demonic beasts wings can fly high up into the sky, pick you up with its magic claws and then punch you. Lastly his neck can extend really long and chomp your head of.

The Deadly Cave

If you think appearance is terrifying **WELL THEN LOOK AT THIS...** his location is Tugley woods and his lair is the most disgusting thing you have ever seen in the entrance he has no more leaves on the trees organs borogoves liver intestines and around the river is really gross blood puddles. Do you think that is gross?While you are walking through the deadly,sinister entrance we move on to the house inside his bed is made out of borogoves bones and his walls are painted with blue blood.

The Demolishing Diet

This blood curdling beast is a nocturnal animal so he likes to not be seen alot and nobody stealing his food. This malicious beast is a carnivore so it eats almost every meat . his favourite food is children's pumping hearts borogoves organs and baby JubJub bird eggs.It will demolish all of those The nocturnal Jabberwocky Keeps loads of borogoves,arms,legs and heads he doesn't care what he eats he just rips it and munches on all of it.
