What we get up to in Ash Class!

19.6.26

Literacy

The children are going to be reading the book Growing Frogs and use it to inspire their own stories about the animals they made in Drawing Club.

Click here for Growing Frogs

Maths

This week we are revisiting how children compare numbers and objects. The activities help us see what they already know. We are watching for skills like spotting big and small differences, matching objects one by one, noticing equal groups, comparing different objects, understanding I more and I less within 10, and recognising when a number is much bigger.

Our Farm Trip is coming....

Please make sure you bring the following -

- Tracksuit bottoms or trousers - please can you make sure that these are light (skirts/shorts are not suitable, and jeans are very uncomfortable if they get wet)
- Sweatshirt or Jumper
- Warm Jacket/Fleece (if cold)
- Thick warm socks
- Wellies
- Warm hat and gloves (if cold)
- Waterproof coat with hood

It is strongly recommended by the farm that the children wear wellington boots and bring some shoes to change into at the end of the trip. We will be going on the trip, regardless of the weather on the day:

Sunny: Please apply sunscreen on your child before they come to school and provide a named sunhat.
Rainy/Cloudy: Please provide a waterproof raincoat.

Home Learning

Can you make your own frog life cycle model at home? Use craft materials, draw each stage, or build it with things you find around the house.

At home, try comparing groups of toys or snacks. Count them, spot which has more or less, and see if any groups are the same. You can also explore I more and I less using numbers up to 10.

Notices

19th June - Herriard Farm Trip
30th June - Ash Class Assembly

Library Day - Tuesday please bring the books back in so the children can swap them for another book.

Reading Books - Friday please bring the books back in so we can give the children their next book.
