MISSION ANTARCTICA

Antarctic Exploration

Learning Objectives

ALL = to know some equipment required for Antarctic exploration
MOST = to know why people explore the Antarctic
SOME = use skills to map out Antarctic explorations

RESEARCHING EXPLORATIONS

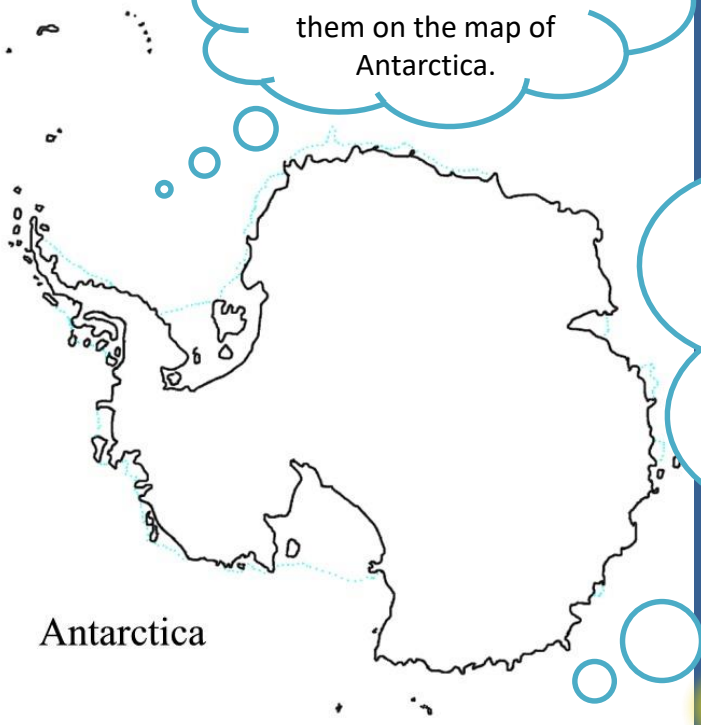

You are going to be using computers to research into Antarctic Explorations. You have an activity research sheet to complete by the end of the lesson. This is an individual task and you will share your findings at the end.

1. Find out the names of 3 famous Antarctic explorers:

2. What specialist equipment do you think you will require when travelling to Antarctica?

3. Name the research stations and locate them on the map of Antarctica.

4. Research these key events in Antarctic exploration and complete the timeline:

1772-1775

1915

1961
