Can you use the strategies to solve...?

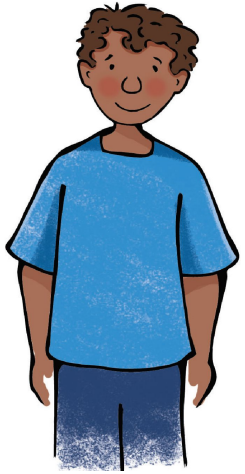

123 + 374 =

220 + 93 + 80 =

198 + 28 =

Partitioning
Commutativity
Round and Adjust

Subtraction Strategies

How could we complete the following equation?

$124 + _____ = 280$

$456 + _____ = 520$

Find difference by adding

Subtraction Strategies

It is also possible to use other subtraction strategies...

368 - 124 =

821 - 710 =

Partitioning for subtraction
