Resume once you're finished

1. Estimate the answer to the calculation using rounding.
2. Calculate the answer using the column method.

732 198 - 131 449 =

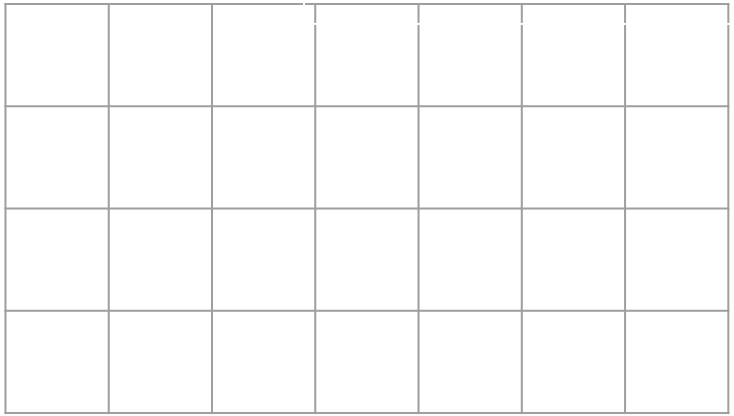

923 556 - 385 128 =

Bar modelling

Let's represent:
653 119 - 120 401
using a bar model:

Estimation:

Calculation:

Independent Task

1. For each of the equations below, provide a suitable estimate before calculating using the column method:

a) 778 660 - 145 132 =

b) 801 991 - 332 098 =

c) 563 109 - 23 986 =

2. Create a bar model to represent and calculate:

451 229 - 23 012 =
