What we get up to in Ash Class!
13.3.26

Literacy

As a school, we have a subscription to the Sora App which is run by Hampshire Library Service. This is really lovely platform where you can borrow books electronically.

The login for this is:
Username - Lastname.Firstname (Smith.Bob)
Password - Cherryl23

Maths

This week, the children explored how the number 7 can be made in different ways. Through games and hands-on activities –such as counting 'ducks on a pond'–they discovered that 7 can be split into smaller parts (for example, 5 and 2). They investigated different combinations, spotted patterns, and practised finding the "missing part" when 7 was partitioned.

Try it at home:
Use small objects like buttons, raisins or Lego bricks. Ask your child to count out 7 and then split them into two groups in as many ways as they can. Ask, "How many here? How many there? Do they still make 7?"

Science Day!

We had such a great day on Monday to celebrate British Science Week.
We experimented with milk and food colouring and watched it react with washing up liquid, we made blue ooblek for our sea creatures and we even watched some dancing raisins.

Notices

Trip to the Church of the Good Shepherd - Tuesday the 24th March

End of Term - 3.15pm Friday 27th March

Library Day - Tuesday please bring the books back in so the children can swap them for another book.

Reading Books - Friday please bring the books back in so we can give the children their next book.
