

On-Site Traffic Policy and Procedures

At Cherrywood Community Primary School we endeavour to keep traffic on site to a minimum. The site is shared with two other establishments – Henry Tyndale Early Years and Cherrywood Community Childcare / Preschool.

Traffic on site is restricted to:

- A limited number of car parking spaces for staff, parents and visitors
- disabled parking bays for visitors and those parents of children attending Henry Tyndale who have disabilities
- drop off point for minibuses used by Henry Tyndale
- loading bay for use by delivery vehicles

The school, parents and visitors will ensure:

- there is adequate signage indicating parking spaces
- deliveries to school will be requested to avoid those times where the site is at its busiest
- contractor parking is available with prior approval and agreement with the Headteacher
- pedestrians use the pathway and zebra crossing and not walk in the road
- scooters and bicycles are not ridden in the school grounds; riders are requested to dismount prior to entering
- the school office in notified advance if special parking arrangements are required

Policy agreed on: 27th January 2020

Policy due for review: Jan 2022

Policy signed on behalf of governing body by: Betty Read
