The deadly appearance

He have powerful claws he can eat you in one dite he is a blud thersde creecher and his tail is scaly. In one swish he can cut you in to hufe and his winse make him flye sow fast and his teeth are sharp as a nife and his eyes red firy and his neck is loner then a traft and his sculls as a diamond .

The lising woods

This cave is a jabberwok cave do not come here. Cuverd wive ded and bones from the ded and 100 giyis in sise over the cave and trees are cuvring the cave and as one ov the trees is a nest all of the animols are gone because the jabberwok ate all of them and is smell smoke like socks is on fire.

The horrible diet

The Jaberwock eats flesh off your body. The Jaberwocks favorite food is JubJub bird eggs. When they hatch also whoever goes there tro save the eggs is foolish. The Jabberwock eats people and the flesh off of their arms.
