Deadly Jabberwock!!!

Appearance

You won't believe your eyes when you see this dreadful creature. The Jabberwock!! It has bright red eyes.If you stare into them you will get hypnotized into a deep sleep that will last 500 years and when you wake up the world outside NEVER be the same. His wings can spread up to 7 meters in adult form. They can also slice the human body into tiny pieces.The beast's teeth can crunch trees into tiny slices. Its burning breath is hotter than scorching lava. His neck can wrap around a tree 4 times.It can also shows the life out of you and lay you flat on the floor.His tail is as sharp as a sword and as scaley as a crocodile . Now don't get me started on his claws there as white as clouds.All of those things put together makes a monster machine.

You don't want to meet the Jabberwock !!

If you think appearance is terrifying you better stop reading. When you walk into his cave there is a terrible stench in the air of Jabberwolk dropping's smells of Jubjub bird's blood and that smells disgusting. It has blood everywhere on the path to his cave is unbelievable. There's blood from the bandersnatch,boregrove and even the Jubjub bird. There's also organs and body parts everywhere. There's fire from his burning breath. There is one thing I forget to mention, his cave is located in the heart of the tulgey wood!!!

His nest is made out of the Jubjub bird's bones and his cave is a mess. He always hides in the long grass that hasn't been cut for a while. So when you go there and you're not looking he will pounce and you will never been seen again. When you

Dreadful diet:

This beast is a carnivore. He loves the flesh of a Jubjub bird but his favourite is children.He will demolish you in one go and save your head till last. He will kill anything moving in his way. The hideuse Jabberwolk will take the egg's of a bandersnatch and smash it and eat the baby inside. The boregrove is faster than the Jabberwock but they are skillful. He is the most dangerous creature in the tulgey woods.
