His deadly appearance

This fearless animal has flaming orange eyes like a blazing fire. This dagrouse beast and has a tail are as hard as stone. It can rip of someones head and feast on it
Its claws are sharper than a steel blade. It can rip its enemies flesh off and eat all of its meat and it is a blood sucking monster.
The monster teeth are sharper than a blade. It can rip its opponent in half and eat on its rotten flesh.
The wing of the Jab Jab work is so dangerous. It can kill you in a swing and then it keeps going hunting and chopping the heads off. Its eyes can shoot out a laser and abliderate you into nothing.

The screaming cave

If you think that the appearance was scary then you will be even more scared the Jab Jab wock lives in a cave that is pitch black and can't see anything all you can see is human skulls limbs it is located near tugly woods and if you step one foot in then you are being leaded to death and it is stained with blood all over the place did you know that the Jab Jab wock is very
slimy and covered in blood?

The tasty diet

This dagrouse beast is a cavile.It can eat humans meat and sometimes if he cannot eat small children because he can still be hungry and he can scope out the 3o years old from the orange fire eyes.He only feasts on meat and sometimes he eats plants but her favorite is meat he eats Jub Jub bird eggs and keeps them warm and when they hatch he munches and crunches and tea limb by limb.
