The Terrifying Jabberwock

Appearance

The dangerous creature has eyes as red as fire. The horrible animal also has sharp claws like knives and a bloody tail. It can cut you head off in a second. The creepy beast has wings that can capture you and rip your flesh into tiny little peaces and also has claws that can slice your head off.

The Blood-Dripping Cave

If you think the appearance is bad then **LOOK AWAY NOW…..** This horrible beast lives in the heart of the tugley woods you will also spot the JubJub bird near the Jabberwocks cave but the deadly beast ate the bird. There are three signs that the Jabberwock can see you 1.the cave will drip with blue blood. 2.the river of blood will start to flow more. 3.He jumps out and gets you !!!!!

The Disgusting Diet

If you want to know more horrible facts then **KEEP LOOKING …..** The deadly omnivore loves to eat: human flesh,bloody human hands, a bandersnatchers tail after chasing a bandersnatch,some of the JubJub birds eggs and most importantly he love insects especially the ones from the Tugley woods.
